# MESSAGE FROM THE COMMISSIONERS

*"This is a good program that serves a good purpose.*

*I am pleased also that the  
perpetrator of this crime  
was made to repay the program  
for the monies  
that went towards our daughter's costs."*

Mother of victim

Through the passage of Act 206 in 1998, the State Legislature sent a message to criminal offenders that they were to bear more financial responsibility for the Hawaii's violent crime victims. With the cooperation of the Judiciary, the mechanisms for assessing and collecting crime victim compensation fees, authorized through Act 206, are being implemented.

We are justifiably pleased to report to the community, Governor and State Legislature that the Commission's transition to self-sufficiency is progressing steadily. By the end of FY'99, the mandatory fees provided sufficient funding to cover all of CVCC's payroll and operating expenses in FY'00. Further, by the end of FY'00, the fees collected will cover not only FY'01 payroll and operating expenses, but also at least 25% of compensation awards.

We acknowledge the Commission staff for maintaining as well as raising the program standards during this time of fiscal and personnel constraints. Their achievements within the last year alone include:

- Reducing claims processing time by 25%;
- Eliminating the backlog of cases;
- Developing a user-friendly application form; and
- Making application and other forms available through the Internet.

We renew our pledge to helping Hawaii's crime victims and their families recover from the devastating effects of violent crime.

Sincerely,

Paula Chun, Chair  
Judy Sabin, Commissioner  
Les Ihara, Commissioner

# HIGHLIGHTS

# OVERVIEW

The Hawaii State Legislature established the Crime Victim Compensation Commission (Commission) in 1967 to compensate Hawaii's victims of violent crime. Many victims experience financial hardship and cannot afford to pay for medical and/or mental health treatment required in order to recover from the many impacts of violent crime, and the Commission provides a financial and psychological safety net for these victims. The Commission provides compensation for, among other things, medical expenses, mental health counseling, funeral expenses and lost wages.

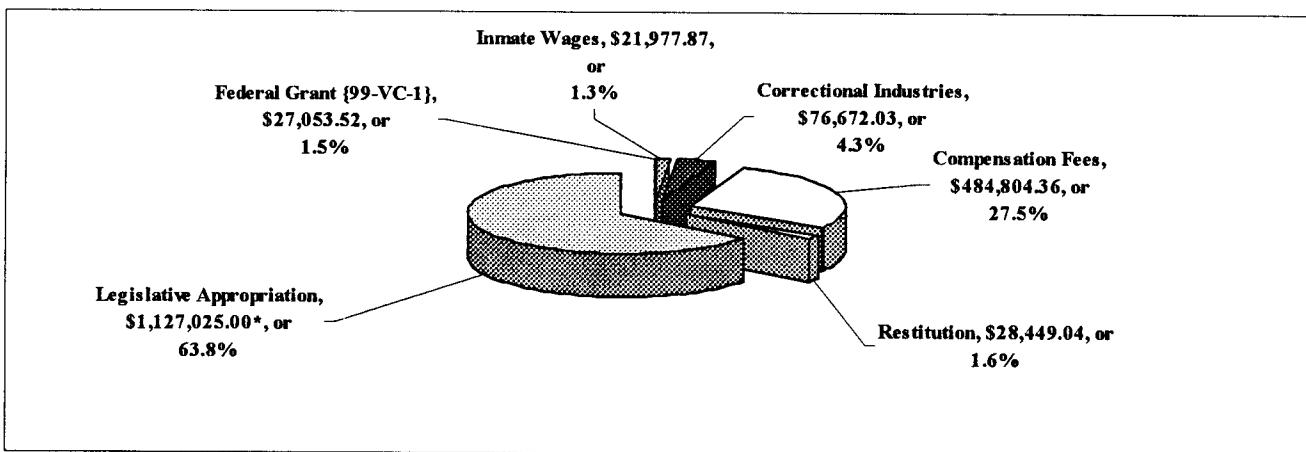

## FUNDING SOURCES

CVCC receives funding from the following sources:

- **Compensation Fee:** judges are required to assess a mandatory crime victim compensation fee against every offender who is convicted of a petty misdemeanor, misdemeanor or felony, and who has the ability to pay (see Appendix, Chart 1);
- **Restitution:** court ordered payments from convicted offenders to reimburse CVCC for victim compensation awards (see Appendix, Chart 1);
- **Inmate Wages and Correctional Industries:** ten percent (10%) of earnings from Hawaii inmates, including those housed in mainland facilities (see Appendix, Chart 1);
- **Federal VOCA Grant:** funds received through the Victims of Crime Act. States receive a forty percent (40%) federal match for every state dollar expended to compensate crime victims; and
- **General Fund Appropriation for Compensation:** funds appropriated by the Legislature for crime victim compensation.

The total amount received from all sources in Fiscal Year 1999 – 2000 was \$1,765,981.82.

### FISCAL YEAR 1999 – 2000 TOTAL: \$1,765,981.82

1% of the Legislative appropriation was restricted

# ACHIEVEMENTS

In FY 2000 the Commission focused both on increasing non-tax revenue receipts in order to achieve greater fiscal self-sufficiency and on maintaining progress towards meeting the National Association of Crime Victim Compensation Boards' Program Standards.

## FISCAL SELF-SUFFICIENCY

The following achievements have increased the level of the Commission's fiscal self-sufficiency:

- **Non-tax Revenue Receipts**  
In FY 2000, non-tax revenue receipts increased from \$121,485.35 in the first quarter to \$199,943.70 in the fourth quarter, an increase of 65% (Appendix, Chart 2).
- **Compensation Awards**  
General fund appropriations to pay compensation awards have been significantly reduced. In FY 1999, the Commission received a \$1,187,475 general fund appropriation to compensate crime victims. **In FY 2002, the Commission is requesting only a \$450,000 general fund appropriation to compensate crime victims, a reduction of over 62%** (Appendix, Chart 3).
- **Operating Expenses**  
General fund appropriations to pay the Commission's operating expenses have been eliminated. In FY 1998, a general fund appropriation covered 100%, or \$245,521, of the Commission's operating expenses. In FY 2000, 100% or \$337,042 of the Commission's operating expenses were covered by special funds (increased operating expenses reflect payment of fringe benefits from the Commission's budget, not an increase in positions) (see Appendix, Chart 4).

## PROGRAM STANDARDS

CVCC is committed to meeting the program standards of the National Association of Crime Victim Compensation Boards'.

- **Goal 1: Effective Outreach, Training and Communication**  
The Commission presented a statewide conference for victim service professionals and provided information upon request to victims and service providers; worked with community and other agencies to provide compensation to victims and survivors of the Xerox tragedy; and developed a new victim-friendly application form.
- **Goal 2: Expedited and Accurate Claims Processing**  
The Commission developed new procedures to improve claims processing, reducing processing time by over 25% and made applications and forms available over the Internet; Commission staff received training on avoiding burnout and helping victims of mass casualty incidents; and conducted a review of the Commission's Rules and

Procedures to assure that applications were being processed in accordance with applicable statutes and Rules.

- **Goal 3: Good Decision Making**

The Commission reduced claims processing time by the streamlining the eligibility process and by eliminating an unnecessary steps in the application process; redrafted correspondence to victims to make them more informative and sensitive; and restructured the Commission's appeals schedule so victims can choose a hearing date that is most convenient for them.

- **Goal 4: Sound Financial Planning**

The Commission continues to track non-tax revenues; work with the Judiciary to maximize collection of the mandatory crime victim compensation fees; maximize collection of restitution and subrogation; and administer all funds in accordance with state and federal guidelines and sound accounting principles.

For a specific description of these goals please see Program Standards on pages 7 to 11.

## **LEGISLATIVE HIGHLIGHTS**

- **Commission's Funding Base Increased**

Act 115 of the 2000 legislature increased the Commission's funding base by requiring that judges assess offenders, with the ability to pay and who enter a deferred plea (DAG/DANC) to a petty misdemeanor, misdemeanor or felony, a mandatory crime victim compensation fee. Previously only convicted offenders were subject to being assessed the mandatory fee.

- **Mental Health Counseling Compensation Authorized for Surviving Family Members in Cases Involving Mass Casualty (Xerox-type cases)**

Act 57 of the 2000 legislature authorizes the Commission to provide compensation for mental health counseling for the benefit of surviving family members, witnesses and individuals engaged in educational or business activities at the scene of a mass casualty.

- **Appropriation for Victim Compensation**

Act 114 provided an appropriation of \$887,025 for the Commission to pay compensation to victims, their dependents, and service providers.

# CHALLENGES

## IMPEDIMENTS TO FISCAL SELF-SUFFICIENCY

### Collection of the Crime Victim Compensation Fee

In 1998, the legislature created a mandatory crime victim compensation fee (“mandatory fee”) to provide a funding base for the Commission to begin the transition to fiscal self-sufficiency. The mandatory fee, which is required to be assessed against every convicted petty misdemeanant, misdemeanor and felon with the ability to pay, provided sufficient funding in FY 2000 to pay all of the Commission’s operating expenses. In FY 2001, deposits from the mandatory fee will provide sufficient funding to cover all of the Commission’s operating expenses and at least 25% of the Commission’s compensation awards.

While the mandatory fee has provided the Commission with significant funding since it was enacted, an obstacle to the assessment and collection of the fee has been identified as an inhibitor of the Commission’s transition to fiscal self-sufficiency. The Commission conducted a preliminary survey that indicated that many judges were not assessing the mandatory fee in a significant number of eligible cases. In the first year that the fee was mandated (FY 1998-1999), the Judiciary assessed and collected less than half of the anticipated revenue. While the Judiciary estimated revenues at \$844,913 for FY 1998-1999, less than \$330,000 in mandatory fee assessments were actually collected that year.

The Commission is committed to becoming fiscally self-sufficient. However, there is a lag time between the enactment of a statutory funding mechanism and its full implementation. The Commission is working with the Judiciary to ensure that the mandatory fee is assessed and collected in all eligible cases. The Judiciary has committed to full implementation, assessment and collection of the mandatory fee, where all funds identified in the statute for collection are actually being collected.

### Personnel Constraints – the 30% cap and assessments on non-tax revenues

#### **The 30% Cap**

In 1999, Section 4 of Act 278 temporarily eliminated the 30% cap on the Commission’s operating expenses until July 1, 2001 when it will be automatically reenacted. The cap limits the Commission’s expenditures for operating expenses to thirty percent (30%) of its non-tax revenue. If the 30% cap is reenacted the Commission will experience severe fiscal uncertainty and will be unable to adequately serve Hawaii’s victims of violent crime, and the Commission’s substantial efforts to achieve fiscal self-sufficiency will suffer a serious setback.

Although non-tax revenue collections have increased in the last year, it is still impossible to tell how much revenue will be collected, and in turn, how much of this non-tax revenue will be available to pay the Commission’s operating expenses if the cap is in place. Operating expenses include staff costs, and staffing capacity will be severely reduced if the cap is in place.

### **Assessments on Non-tax Revenue**

This problem is exacerbated by two assessments the Commission is required to pay to Budget and Finance on all nontax revenue collected by, or on behalf of, the Commission. The first assessment is the five percent (5%) central service expense fee, and the second assessment is the Commission's pro rata share of administrative expenses incurred by the Department of Public Safety. The Commission estimates that for FY'02, these two assessments will exceed \$60,000. This is particularly significant because the assessments are considered part of the Commission's operating expenses and are included in the expenditures allowed under the thirty percent (30%) cap. In this way, the cap further severely limits the ability of the Commission to collect and administer victim compensation funds.

# **PROGRAM STANDARDS**

The Crime Victim Compensation Commission is committed to oversee the administration of the State office to meet the National Association of Crime Victim Compensation Boards' Program Standard. This section follows the Program Standards' Goals and Objectives, and includes the plans of the Commission and staff to meet these standards.

## Goal 1: Effective Outreach, Training & Communication

### ***Objective 1: Provide information and training to victims and personnel, such as police and victim advocates who work with victims***

- The Commission provided information and training upon request to crime victims, survivors, police and other service providers.
- The Commission conducted a **Statewide Victim Assistance Conference – How to Better Serve Survivors of Violent Crime in Hawaii** in May 2000. Over 150 victim service professionals attended the conference, including, victim-witness advocates for the county prosecutor's offices; mental health counselors; experts on child and elder abuse; medical providers; police; and educators. National and local experts provided training on the following topics: responding to crime victims; restorative justice; elder abuse; post-traumatic stress syndrome in crime victims; protecting our children from sexual assault; mass casualty response (Xerox-type cases); applying for crime victim compensation and stalking.

Conference funding was provided through a Federal Victim of Crime Act (VOCA) grant.

### ***Objective 2: Foster mutual understanding with victim service groups and criminal justice personnel***

- The Xerox Incident – the Commission worked with state, local and community organizations to assure that victim compensation and victim assistance services were available to victims and surviving family members of the victims of the Xerox tragedy. Through a partnership with the Red Cross, the Commission was able to provide compensation to victims and survivors.
- The Commission determined that surviving family members of the Xerox tragedy were not eligible for compensation to cover mental health counseling expenses. The Commission drafted legislation to address this issue. The legislation was enacted as Act 57 on April 26, 2000.
- The Commission attended quarterly meetings of the Victim Witness Coordinators. Supervisors of each county victim witness assistance program meet on a quarterly basis to identify problems and develop strategies to improve the response to crime victims.
- The Commission met with representatives of the Judiciary to develop a strategy to increase the collection of the crime victim compensation fees and to develop a monitoring system to track the collection of crime victim compensation fees. As a result of these efforts, nontax revenue deposits increased in FY'00 from \$121,485.35 in the first quarter to \$199,943.70 in the fourth quarter, an increase of 65%.

### ***Objective 3: Communicate effectively and sensitively***

- The Commission developed a new victim-friendly application form. The new application form is easy to read and clearly sets out the Commission's benefits and eligibility requirements. The new form contains two new inserts, an authorization for release of

medical/therapeutic information and a lost wage verification form. By including these forms with the application, the Commission no longer needs to mail the forms to the victims for signature. Elimination of this time consuming step has helped to further reduced expenses and the Commission's case processing time.

## **Goal 2: Expedited and Accurate Claims Processing**

### ***Objective 1: Establish and improve processes that ensure the highest efficiency and productivity in processing applications***

- The Commission and the Oahu victim witness assistance program continue to work on a special project to expedite case eligibility determinations. Using CVCC's new eligibility forms, advocates from the victim assistance program were able to complete detailed eligibility summaries in less than half the time it previously took CVCC staff. This project reduced CVCC's case processing time by over 25% and helped eliminate a backlog of old cases (1 year or older).
- CVCC made applications and forms available through the Internet.

### ***Objective 2: Train and manage staff to ensure high quality in processing applications***

- The Commission staff members received training on responding to crime victims and dealing with burnout during the Commission sponsored conference, *How to Better Serve Survivors of Violent Crime in Hawaii*.
- An Investigator and the Administrative Director attended the National Training Conference sponsored by the National Association of Crime Victim Compensation Boards from September 22 – 26, 1999. Topics included providing compensation in a mass casualty incident (Xerox). Less than 6 weeks later, on November 2, 1999, the CVCC staff was able to use the information from this session in responding to the Xerox tragedy

### ***Objective 3: Ensure that applications are processed consistently in accordance with applicable statutes and rules***

- The Commission reviewed its 1994 Rules and began drafting a new set of Rules.
- The Commission reviewed its written Procedures and drafted new Procedures. The Procedures will be finalized after the new Rules have been adopted.

## Goal 3: Good Decision Making

***Objective 1: Establish processes to promote expeditious and accurate decision-making.***

- The Commission and the victim witness program from Oahu continued work on a special project to expedite case eligibility determinations. Using the Commission's new eligibility forms, advocates from the victim assistance program were able to complete detailed eligibility summaries in less than half the time it previously took the Commission staff. This project reduced the Commission's case processing time by over 25% and helped eliminate a backlog of old cases (1 year or older).
- The Commission's new application form has eliminated a time consuming step in the application process of separately mailing medical/therapeutic authorization and lost wage verification forms to victim-applicants. The new application form now includes these forms so that the victim-applicant can fill them out when they are applying and send them in with their application. As a result, CVCC no longer needs to separately mail copies of the forms to the victim-applicant for signature and wait for them to come back before CVCC can process the application.

***Objective 2: Notify victims about decisions in an effective and sensitive manner, informing them of their rights to appeal.***

- The Commission is currently reviewing all of its correspondence templates, including the templates used for decisions, to assure they inform victims of their rights in an effective and sensitive manner.

***Objective 3: Afford applicants an opportunity to appeal program decisions, and to handle appeals fairly and expeditiously.***

- The Commission set new procedures and a new hearing schedule for appeals. Appeals are set on the third Wednesday of every month and victims are allowed to select any hearing date that is convenient for them. Previously staff selected the hearing date for the victim.

## Goal 4: Sound Financial Planning

***Objective 1: Gain an accurate picture of the program's fiscal condition, and to develop strategies to operate within fiscal constraints.***

- The Commission tracks collections of non-tax revenues on a quarterly basis. The Commission continued to streamline case processing procedures in order to maximize the efforts of its limited staff.

***Objective 2: Maximize funding for the program, through whatever sources available.***

- The Commission continued to work with the Judiciary to maximize collection of the mandatory crime victim compensation fee.
- The Commission drafted legislation to increase its funding base by requiring offenders who entered a deferred plea to a petty misdemeanor, misdemeanor or felony to pay a crime victim compensation fee. This legislation was enacted as Act 115 on May 22, 2000.

***Objective 3: Recover as much of the program's payouts as possible from offenders and other responsible parties, through restitution, subrogation, and collateral resources.***

- The Commission's limited staffing has made it impossible to develop and implement a program to recover the maximum amount of payouts as possible from restitution, subrogation and all other collateral sources. The Commission's limited efforts in this area have concentrated on inmates housed at Laumaka. PSD workers at this facility have diligently pursued efforts to assure that the offenders housed at their facility repay the Commission and crime victims to the greatest extent possible.

***Objective 4: Administer state and federal funds in accordance with all state and federal requirement and sound accounting principles.***

- The Commission staff administers federal and state funds in accordance with federal and state requirements.
- The Commission receives a forty percent (40%) federal match for every state dollar spent to compensate crime victims. The grant is received 2 years after the expenditure period. The Commission provides quarterly expenditure reports to the U.S. Department of Justice and is subject to periodic federal audits.
- The Commission complies with the state expenditure requirements. Public Safety's Planning, Programming and Budget staff assists CVCC in the preparation of budget and expenditure plans.
- The Commission staff participated in a Federal Grants Administration workshop at the National Training Conference in September 1999.

# **CLAIMS (BY COUNTY)**

# OAHU REPORT

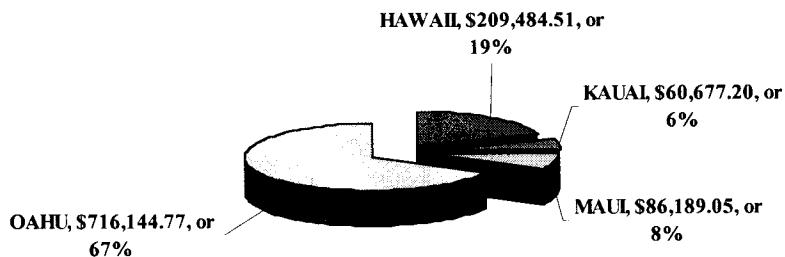

## City & County of Honolulu Case Statistics

July 1, 1999 to June 30, 2000\*

Honolulu County	473 Total Claims Completed	\$719,791.80 Total Awards
Sex	Male – 51.6%	Female – 48.4%
Age	Adult – 73.4%	Minor – 26.6%
Crime Category	Assault	53.7%
